

# ZS

## RECTANGULAR WALL AIR-INTAKE/EXHAUST VENTILATOR

<sup>TM</sup> MAY

### Description:

ZS rectangular roof air-intake/exhaust ventilator with fixed louvres with a bird guard netting.

### Intended use

ZS units are used as terminal units in low- and medium-pressure ventilation systems, as air-intake or exhaust ventilators. These air-intake/exhaust ventilators protect ventilation duct interiors against birds due to a wire net with which they are equipped. ZS units can be installed in the building structure or on the ends of ventilation ducts.

### Design

ZS units have fixed louvres and additional ventilation installation system interior protection in a form of steel bird guard netting. ZS units are normally made of galvanised steel. Other RAL colour-painted versions and a stainless steel version are available upon special request.

### Dimensions

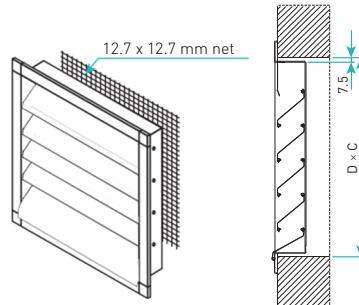

Figure 1. Diagram of the ZS unit.

Dimension range of ZS units as follows:

- Width C = 200–3000 mm,
- Height D = 200–2000 mm.

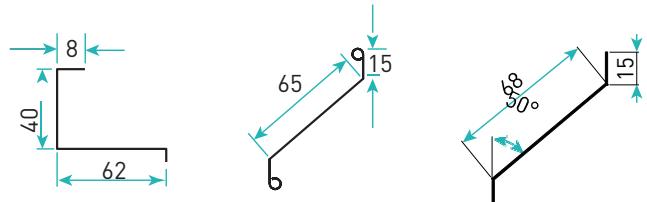

Figure 2. (1) Dimensions of the ZS frame, (2) dimensions of the ZS louvres in -SO and -SL versions, (3) dimensions of ZS louvres in the -SN version

### Effective area

## Installation

ZS units are mounted in the building structure with screws through holes in a louvre frame (holes to be prepared on site). Examples of installation are shown below.

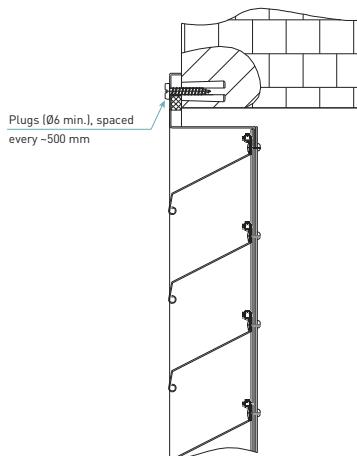

Figure 3. Installation in brickwork or a concrete wall.

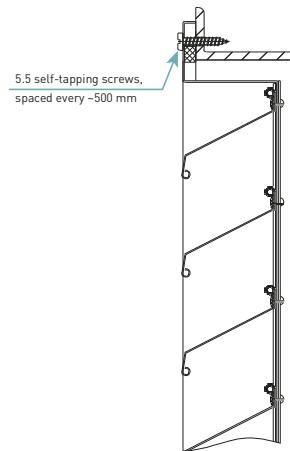

Figure 4. Installation in a steel structure.

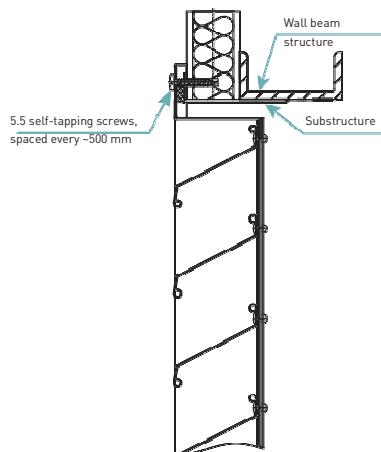

Figure 5. Installation in a wall made of composite panels.

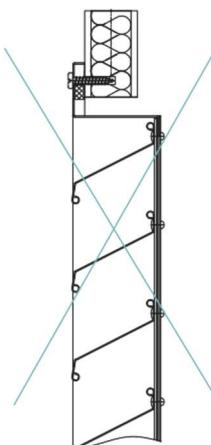

Figure 6. Incorrect steel composite panels wall installation.

In the case of mounting the ZS unit in a wall in composite panels, an additional steel substructure is required to fix the unit to the wall structural components.

## ZS – Rectangular wall air-intake/exhaust ventilator

When ordering, please provide information according to the following pattern:

**ZS - <C> x <D> - W<W> - <P> <RAL>**

Where:

<b>C</b>	Mounting hole width in mm
<b>D</b>	Mounting hole height in mm
<b>W</b>	Number of stiffening crossbars: W = 0 for C < 1500; W = 1 for C ≥ 1500mm; W = 2 for C ≥ 2250 mm
<b>P</b>	Finish*

SL – Painted steel

**SO** – Galvanised steel

SN – Stainless steel, quality 1.4301 (304 according to AISI, 0H18N9 according to PN)

**RAL** Colour as per RAL (for SL finish)

\*Optional values – if blank, default values will be used Example product marking: **ZS - 1000 x 1000 - SL9010**
