## DIFFUSER WITH MOVABLE NOZZLES

<sup>TM</sup> SMAY

### Description:

Rectangular steel diffuser with movable plastic nozzles.

### Intended use

The NWI diffusers are designed for use in low- and medium-pressure ventilation systems, where an increased air stream range is required.

The micro-nozzles installed in the NWI allow for high air induction. The diffusers are available with a rectangular front panel.

### Design

The NWI diffusers are equipped with movable, individually adjustable micro-nozzles. The front panel of the diffuser is rectangular and made of steel powder coated in white RAL9010. The micro-nozzles installed in the panel are made of plastic. The whole unit (a panel with micro-nozzles) is mounted in a frame made of aluminium powder coated in white RAL9010. On request, it is possible to paint the panel and diffuser frame in a different colour from the RAL palette.

### Installation

The NWI diffusers are mounted to ventilation ducts, plenum boxes or partitions with screws through holes in the diffuser frame. The holes must be prepared during assembly.

**i** Technical data of the diffusers, including pressure loss, noise level and airflow ranges, is available at [smay.eu](http://smay.eu), in the document Flow Characteristics for Grilles and Diffusers.

### Dimensions

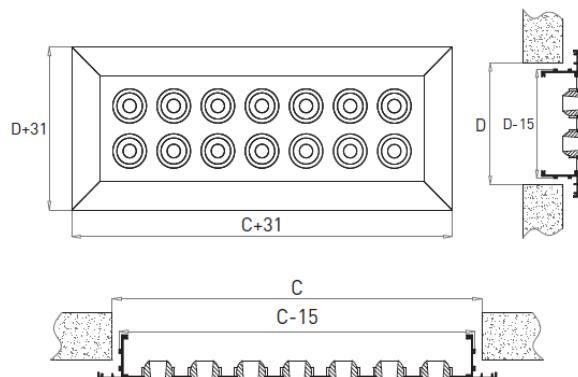

Figure 1. Dimensions of the front panel of the NWI diffuser.

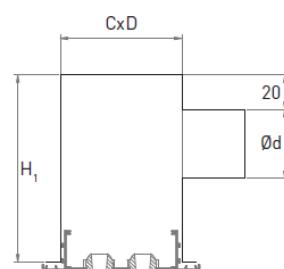

Figure 2. Dimensions of the NWI diffuser plenum box.

## NWI – Diffuser with movable nozzles

When ordering, please provide information in accordance with the following pattern:

NWI - <W> - <C> - <D> - SL <RAL> / <ADD>

Where:

- W** Required number of rows of micro-nozzles
- C** Mounting hole width in mm
- D** Mounting hole height in mm
- RAL** Colour according to the RAL colour chart \*
- ADD** Specify additional accessories here as follows

Accessories \*\*

Plenum box as per the configuration below:

<SR> <I> - <W> - <H> - <K> <D> <R>T

I	insulation
	<b>None</b> – No insulation
	t – Insulated
W	Sieve deflector
	None – Without a deflector
	s – With a deflector
H	Plenum box height *
D	Connection pipe diameter in mm*
R	Damper in a connection pipe:
	None – No damper
	P – Damper adjusted from outside the box

\* Optional values – if not specified, default values will be used

\*\* For more information see the accessories sheet

Order example: NWI-2-600x150-SL9010/SRts-225-b123P
